

Mentor Application Form

The Flower Pot, LLC

Mentoring can be defined as a developmental relationship in which a more experienced person provides support and guidance to a less experienced person. Mentoring goes beyond the traditional teacher-student relationship - effective mentors serve as advisers, coaches, teachers, sounding boards, cheerleaders, and critics all rolled into one. Mentors give those with less experience an opportunity to improve their understanding of practices, discuss problems, and analyze and learn from mistakes in an atmosphere that is collaborative, constructive, and confidential.

The Flower Pot suggests/prefers that Mentors have at least three years of experience in the field; however exceptions may be made by the Program CEO.
